The Ball State Daily News

Muncie, IN.

Multiple positions from Aug 2014 to May 2017.

iDesk Developer, Web Content/Social Media Editor, Online Design Editor, Web Designer

EDUCATION

BALL STATE UNIVERSITY Photojournalism / Digital Media

**Muncie, Indiana
2013-2017**

I earned my degree in photojournalism with a minor in digital media from Ball State University. During my time there, I gained hands-on experience working for the Ball State Daily as a web designer and developer. I also contributed to a 2016 Rio Olympics project/class by creating and managing a website for a team of student journalists. Additionally, I worked on a multimedia project titled “Unmasked: The Stigma of Meth,” where I developed and maintained a website to support the project’s printed edition, radio series on Indiana Public Radio, and a public television documentary on WIPB PBS.
